

Mitigation > Education > Conducting a Pandemic Preparedness Impact Assessment

Want to learn the best ways to protect your people in the event of a pandemic?

ITC offers comprehensive training in a one or two day format that covers the critical components of a successful Pandemic Preparedness Impact Program. The program will help you learn how to assess your organization's state of readiness, including the effectiveness of your Disaster Recovery Plan and just how well your organization is prepared to handle Risk Management in the event of a Pandemic.

The Pandemic Preparedness Impact Assessment includes:

- Company pandemic strategy and policy
- Critical resource identification and tracking
- Communication plans for employees and customers, including Command Center capabilities
- Employee impact and mitigation plans
- Proximity to healthcare facilities
- Supply chain impact and mitigation
- Government interface plans
- Linkage to business continuity plans
- Pandemic plan testing, audit and maintenance
- Crisis plan initiatives

Participants will work in small groups to outline Pandemic Preparedness Impact Assessment Plans which they can apply to their organization.

Let our experienced risk management consultants help your staff obtain the training and knowledge they need to support your company's business continuity requirements. Let ITC provide your organization with Total Pandemic Protection.

ITC is your Total Protection Solutions Provider.
